

# Rural Water Agenda Working Group

**An invitation to support rural and island communities' private water and wastewater systems, by steering the design and delivery of:**

## **NEW DIGITAL HUB**

An independent online library for case studies, contact information, research, reports, and more.

## **RURAL LENS FRAMEWORK**

New guidance for government towards influencing decentralised water and wastewater management policy, plans, and funding.

## **WORKSHOPS**

Practitioner-led learning exchange events to encourage the emerging peer network across Scotland.

**The Working Group will meet between January and March 2026.**

This invitation is non-transferable.
